From an established practice to a modern firm

Our story begins with the law office of Ahmad Fayez Al-Kattan, who began practising in Amman in 1979 and built a reputation for independence, precision and commitment to his clients.

Osama Al-Kattan & Co. carries that practice forward. We have kept its professional values and broadened our services to meet the needs of banks, companies and individuals in a changing legal and commercial environment.

Where we work

Our main office is in Wadi Saqra, Amman. We also have a branch in Syria, and professional cooperation agreements with law firms in Dubai and Saudi Arabia.

Clear advice, and persistent follow-through

We are a team of Jordanian lawyers and legal consultants working across litigation, advisory, collection and enforcement. We give clients advice that is clear, precise and direct, and we stay with the matter until it is resolved.

How we work

01

Understand the business first

Our advice starts from the client's business and its risks, whether at formation, in negotiation, in drafting contracts, or in protecting rights before commitments are made.

02

Choose the right route

We weigh settlement, negotiation, arbitration and litigation, and set out the options clearly before a decision is taken.

03

Follow through to enforcement

Our work does not stop at judgment. We pursue enforcement until the client's rights are realised.

OUR VALUES

Integrity

Transparency and honesty in everything we do.

Professionalism

A qualified team working to best legal practice.

Confidentiality

Client information handled with the utmost discretion.

Legal innovation

Modern solutions that keep pace with local and international developments.

Client focus

Client needs at the centre of every decision.

Full-service legal support for businesses and individuals

01

Litigation

Representation before courts at all levels in civil, commercial, criminal and administrative matters, including complex disputes.

02

Legal advisory

Advice on civil, commercial, international and labour law.

03

Contracts

Drafting, reviewing and negotiating commercial contracts and agreements.

04

Arbitration & ADR

Commercial arbitration, negotiation and settlement outside the courts where that better serves the client.

05

Banking & finance

Acting for banks and finance companies in claims and disputes, recovery of non-performing loans and enforcement.

06

Debt collection & enforcement

Amicable and judicial collection, and enforcement before the competent execution departments.

07

Insurance

Insurance disputes and representing clients before insurers, including compensation claims.

08

Energy & electricity

Cases of tampering with installations and unlawful consumption of electricity.

09

Intellectual property & trademarks

Trademark registration and protection in Jordan and abroad, and related filings with the Ministry of Industry and Trade.

Long experience serving banks and companies

Collection and enforcement are among our deepest areas of experience. For many years we have handled portfolios for banks and for telecom, energy, insurance and finance companies, from the first demand through to enforcement.

O1

Amicable collection

Contacting debtors, negotiating settlements and agreeing repayment schedules before going to court.

O2

Judicial collection

Filing claims and representing the client through to judgment.

O3

Enforcement

Pursuing files before the execution departments, including public auctions and other enforcement measures.

Typical files

- Non-performing loans to individuals and companies.
- Vehicle and housing loans.
- Written-off debt.
- Credit card and personal finance debt.
- Shortfall claims where the mortgage or real-estate security does not cover the loan.
- Receivables of telecom, electricity and insurance companies.

A dedicated department, electronic follow-up and regular reporting

We run collection and enforcement work through a clear structure, with periodic reporting that keeps clients informed of how their files are progressing.

Debt collection department

A specialised team, led by the department manager, that handles amicable collection files day to day in coordination with our lawyers.

Internal tracking system

Collection and enforcement files, steps and payments are tracked in an internal electronic system.

Client portal

Clients can review their files through an online portal.

Intellectual property unit

A dedicated unit for trademark registration and protection.

Reporting and follow-up

Periodic reports are usually provided monthly, or as agreed with the client, and a follow-up officer is assigned according to need, the nature of the files and the volume of work.
